EDUSOL · SOLAR POWERED COMPUTERS FOR RURAL EDUCATION

El Ocotillo, Honduras

Community member assists Soluz Honduras PV Technician mount the PV array September 2004.

El Ocotillo's primary school. The PV installation served as practical experience for our local partner Christian Children's Fund Honduras following the 2004 Honduras EduSol workshop. September 2004

San Marcos, Honduras

The primary school in San Marcos. The PV installation served as practical experience for our local partner NGO Bayan following the 2004 Honduras EduSol workshop. September 2004

Ministry of Education Project Coordinators, partnering with Bayan and Enersol on the San Marcos project, proudly show off the locally made-to-order EduSol computer desk. April 2005

EDUSOL · SOLAR POWERED COMPUTERS FOR RURAL EDUCATION

Batalla, Honduras

Local PV Technician installs modules on school in Batalla July 1, 2005. Batalla is located in the remote Honduran Moskitia. The project has experienced long delays due to the logistical challenges working in the region presents.

Community project committee meets in school yard
